INSTRUCTIONS FOR FILING A CONDITIONAL USE PERMIT/AMENDMENT

INSTRUCTIONS

Please prepare the plans, forms and other required information listed below and return them, by appointment, to the Planning Divisions of the Department of Planning, Building and Code Enforcement. Applications will only be accepted for processing if they are complete.

- 1. Completed Application Forms. A separate application shall be filed for each site. Each application shall be signed by all owners of the real property included in the site or by a person having the lawful power of attorney therefore or by a qualified tenant. The application may designate an agent who has full authority to act on behalf of the applicant, except that the agent may not sign the application, acceptance or withdrawal. Original signatures are required. A qualified tenant means the exclusive tenant of the entire site and parcel subject to the application, under a recorded lease, which has a remaining term of five or more years at the time of application. A copy of the recorded lease must be included with this application.
- Description of Parcel Property. A legible, separate legal metes and bounds description on a 8 1/2" x 11" page(s) covering the area of this application, or lot and tract numbers on a 8 1/2" x 11" page(s) with a copy of the recorded tract map attached, and a plot map delineating the permit area.
- County Assessor's Parcel Map. Provide a copy of the Assessor's Parcel Map (APN) showing the subject property. This map can be obtained from the County Assessor's Office at 70 West Hedding Street, 5th Floor, San Jose, CA or from the Planning Division, City Hall, Room 400.
- 4. Noticing the Neighborhood. Refer to the Public Outreach Policy for a full description of the City's public notification procedures. Public Hearing notices will be mailed for development proposals at least 10 calendar days before the date set for hearing for a project. Notices will be sent to all property owners and residents within 300 feet for Very Small projects, 500 feet for Standard Development Proposals and a minimum of 1,000 feet for large or controversial projects as detailed in the Public Outreach Policy.
- 5. **Development Plan Sets.** Submit seven (7) plan sets that include:
 - Title Sheet
 - Site Plan

- Grading and Drainage Plan
- Elevations, architectural details, etc.
- LandscapePlan

Plus an additional seven (7) Site Plans and one (1) legible black line plan set, reduced 11" x17". A description of the Development Plan Set requirements is included in these instructions.

- 6. **Environmental Review.** A complete application for the appropriate environmental document or some evidence that environmental review has been completed for this project.
- 7. **Fees.** An application fee, associated Public Noticing fee(s), and the appropriate Environmental application fees are due at the time of filing (see fee schedule). Checks are made payable to the "City of San Jose".

Please call our Appointment Desk at (408) 277-8820 for an application appointment.

DEVELOPMENT PLAN SET

The Development Plan Set shall set forth, show and delineate the following:

- 1. All sheets shall be of uniform size 24" x 36" is the maximum sheet size (sheets of larger size shall require prior approval before filling the application).
- 2. All sheets shall be numbered in proper sequence and numbers located in the lower right hand corner of each page.
- 3. All sheets shall be dated and adequate space provided for dates and nature of all revisions.

Sheet No. 1. Title sheet:

- a. Name of project and description of proposed use
- b. Listing of any prior development permits issued for the subject site
- Table of contents listing all plan set sheets, their content and page number

Sheet No. 2. Site Plan: (drawn to scale) (may require more than one sheet labeled "Site Plan" to include the information listed below):

a. Location map and Assessor's Parcel Number(s)

INSTRUCTIONS FOR FILING A CONDITIONAL USE PERMIT/AMENDMENT

- b. Statement and tables:
 - Total acres of subject property (net and gross)
 - Total number of dwelling units
 - Total existing and proposed gross square footage of floor space for each non-residential use
 - Total existing and proposed net square footage of floor space (85% of gross) for each non-residential
 - Total number of existing and proposed off-street parking and loading spaces
 - Percentage of proposed site coverage for buildings, off-street parking and loading, and landscaping
 - Residential density (number of dwelling units per acre)
- Use of all adjacent properties, including locations of any buildings or freeways within 50 feet of property lines
- d. Dimensions of subject property and all existing lot lines
- e. All existing and proposed buildings, structures and wells and their proposed uses, including the proposed removal of any building (information should be clearly delineated on the site plan)
- f. Proposed off-street parking, loading, and circulation areas
- g. All existing and proposed public and private easements for utility, drainage, sewer, parking, access and other purposes, and all easements on surrounding properties benefiting the subject property
- h. Fully dimensioned public right-of-way improvements for both sides of adjacent streets showing accurate locations for existing and proposed facilities such as streets, curbs, sidewalks, sidewalk planters, street tress, utility poles, electroliers, traffic signs and signals, storm sewers, sanitary sewers, fire hydrants, median island and median island openings, project driveways on opposite street frontages, bus stops, drainage inlets and manholes
- Cross-sections of the full right of way for all existing and proposed public and private streets, and driveways, eachfully dimensioned
- Location of existing and proposed on-site lighting fixtures

Sheet No. 3. Grading and Drainage Plan:

- Topography with pad elevations for the site and all property within 50 feet
- Existing trees, specifying size, species, condition and disposition

- All existing and proposed retaining walls, swales and inlets
- All existing and proposed contours, including slopes and identification of Top of Curb (TOC), Top of Wall (TOW), Base of Wall (BOW), invert and grate elevations
- e. Section through the property to include adjoining properties, showing the grading and soundwall/fence at the property line
- f. Drainage flows and overland release flows
- g. Details of retaining walls, swales and drainage structures
- h. Paving materials

Sheet No. 4. Building Elevations:

- Dimensioned elevations of all exterior walls (Photographs may be substituted for existing elevations to remain unchanged)
- Type of roof, wall and trim materials, colors and textures
- Attached and detached sign details, designs and locations
- d. Changes or additions to existing buildings or materials clearly identified

Sheet No. 5. Floor Plan:

- a. Total gross floor area
- Total square footage of leasable floor area (i.e. 85% of gross)

Sheet No. 6. Landscape Plan:

- All areas to be landscaped, whether maintenance is to be public or private (Public maintenance areas are subject to City Standards and must be included in improvement plans for a Public Works Clearance)
- b. Location, size and identification of each tree, shrub, ground cover and other landscape feature
- c. All property lines and street names
- d. Location of existing and proposed walks, driveways, fences, pools, ponds, water features, retaining walls
- e. Typical details of spray, ground cover, shrub, and tree irrigation installations
- f. Standards for class of irrigation pipe, depth of pipe and backflow preventers

Note: A conceptual irrigation plan is required for many projects once the site layout is resolved. Refer to the City of San Jose Landscape and Irrigation Guidelines for required details

Sheet No. 7. Details:

- Details for proposed fences, walls, trash enclosures, roof equipment screening and lighting
- b. Details for any atypical building features

INSTRUCTIONS

A Conditional Use permit is required for the sale of packaged liquor in the CP, CN and CG zoning districts. If you are proposing to develop a commercial use such as a liquor store, grocery store, drug or convenience store that will include the off-sale of packaged alcoholic beverages you must follow the instructions on this page. This applies to new outlets that sell packaged liquor and to existing outlets that relocating to another site (even within the same commercial center).

- Distance Requirement. City Regulations limit the location of new off-sale alcohol sales. It is therefore required that measurements be made between your proposed site and the following land uses:
 - All other establishments that sell alcoholic beverages, within or outside the City, within 500 feet of the proposed site.
 - All elementary, middle or high schools, colleges or universities, within 500 feet of the proposed site.
 - All residentially zoned property, within 150 feet of the proposed site.

Your measurements should be taken **building to building** using the outside walls of the building. The one exception is for residentially zoned property where the measurement should be taken from proposed building to the residential **property line**. If the proposal is located in a commercial center or other tenant building, use the outside tenant wall to calculate the distance requirement.

Affidavit. Complete the affidavit below. If you answer yes to any of the questions asked in the affidavit, special findings will be required to support your project. 3. **No New Construction.** If you are applying for a Conditional Use Permit to sell alcoholic beverages in an existing building and no new construction or additional square footage will be added, you may prepare the following aerial photograph in lieu of the Development Plan Set requirement (requirement number 5 on the first page of instructions).

Seven copies of an aerial photograph² 24" x 36", showing the site in the center of the photograph and the following information:

- a. Label the aerial photograph as Site Plan.
- b. Clearly outline and identify the site.
- c. Clearly describe the proposed use on the aerial site plan, such as liquor store, grocery store, etc.
- d. Name each surrounding street.
- e. Label all land uses within 500 feet of the site, especially the following land uses:
 - All schools, both public and private
 - All residential uses.
 - Other commercial uses that sell alcohol, on- or offsale. Please be specific as to land use, such as bar, restaurant, grocery store, etc.
- f. If the proposal is part of a multi-tenant building, identify the uses of **each tenant space**.
- g. Identify the type and number of Alcoholic Beverage License to be obtained on the aerial site plan.
- h. Be sure to include a north arrow and the scale of the aerial site plan.

Prior to public hearing additional copies of the aerial photograph may be required.

AFFIDAVIT

THE UNDERSIGNED HEREBY DECLARES THAT THE FOLLOWING IS TRUE AN	ND COR	RECT:	
1. Is your proposed location for off-sale alcohol use within 500 feet of another such off-sale alcohol local	ation?	Yes	☐ No
2. Is your proposed location for off-sale use within 500 feet of any elementary, middle or high school, college or university?		Yes	☐ No
3. Is your proposed location for off-sale alcohol use within 150 feet of any residential zoned property?		Yes	☐ No

ADDITIONAL INSTRUCTIONS FOR STORMWATER RUNOFF DATA

The California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB), requires that the City of San Jose demonstrate compliance with the National Pollution Discharge Elimination System (NPDES) Permit issued to the Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP).

In order to comply with the NPDES Permit requirements, the City of San Jose must provide the RWQCB with the following information requested below. Thank you for your cooperation in compliance.

INSTRUCTIONS

What Projects Apply?

All applicants creating, adding, or replacing 5,000 square feet or more of impervious surface* on the project site must fill out the following information and submit it along with their application for a Planning permit to the Department of Planning, Building and Code Enforcement, Room 400, City Hall, 801 North First Street, San Jose.

What is an Impervious Surface?

An impervious surface prevents the infiltration or passage of water into the soil. Impervious surfaces include rooftops, paved or covered patios, driveways, parking lots, paved walkways, and streets.

For more information on the selection of Best Management Practices for stormwater pollution prevention, please refer to *Start at the Source* by BASMAA and *the Guidance Manual on Selection of Stormwater Quality Control Measures*. These documents are available for purchase in the Department of Planning, Building and Code Enforcement at Room 400, City Hall, 801 North First Street, San Jose. You may also contact Jenny Nusbaum at: jenny.nusbaum@ci.sj.ca.us or (408) 277-4576.

* DO NOT INCLUDE routine maintenance work such as reroofing, or resurfacing of existing paved areas, in the calculation of impervious surface.
